

NUYUN PABASARA

Software Engineer | Full-Stack Developer

ABOUT ME

Aspiring Software Engineer with a solid academic foundation in Software Engineering from Sri Lanka Technology Campus, strong proficiency in **Java** and **.Net**, and **03 year** of industry experience. Demonstrated leadership, collaboration, and adaptability, achieving a **3.61 CGPA** and earning a place on the Dean's List in Semester 03. Proven ability to thrive in competitive working environments with excellent social skills and a penchant for fast learning and adaptation.

My Portfolio (nuyun-kalamullage.github.io)

WORK EXPERIENCE

Software Engineer (Acting) (Ceylon Hospitals PLC)

2026 Aug - Present

Took ownership of critical system development, production deployments, and technical delivery across healthcare applications. Successfully published the OPD and ERP systems to production, mentored two interns to Associate Software Engineer level, and led code reviews to maintain quality, reliability, and development standards.

Junior Software Engineer (Ceylon Hospitals PLC)

2024 Jun - 2026 July

I have extensive experience in developing and maintaining software solutions using .NET/C#, including both desktop and web applications with .NET Core 3.5. My expertise spans full-stack development, API creation and testing with Postman, and efficient version control using Tortoise SVN. I have a proven track record in managing SQL databases, implementing new developments, modifying systems, and updating reports. Additionally, I have actively supported the healthcare system by providing 24-hour on-call support to ensure seamless operations when needed. I also leverage project management and dashboard tracking tools to consistently meet the critical operational needs of the healthcare sector while continually enhancing my technical proficiency and adaptability.

Software Engineer Intern (Silverline IT (PVT) LTD)

2023 Jun - 2023 Dec

I spearheaded the development of 04 machine learning-powered mobile applications using Java and Android Studio, fostering strong client collaboration and delivering projects on time and within budget. Leveraging expertise in Firebase and API management, I tackled diverse tasks encompassing both frontend and backend aspects. This 06-month experience not only honed my full-stack development skills but also instilled exceptional adaptability and problem-solving capabilities

SKILLS

PROGRAMING LANGUAGES

Java, Python, **C#**, Dart, C, MATLAB/R

DATABASE SYSTEMS

MYSQL, **Firestore**, MongoDB, PostgreSQL

FRAMEWORKS

Spring Boot, .Net, Vaadin, Entity Framework , Flask

WEB TECHNOLOGIES

HTML, CSS, **React**, JQuery, Ajax

PROTOCOLS

REST, MVC, SOAP

PROJECTS

Microsoft BC Migration (Durdans Project) RabbitMQ, REST APIs, C#, .Net 3.5, Seq

Led the migration of Finance and Procurement modules from the legacy ERP to Microsoft Dynamics 365 Business Central, integrating existing Durdans front-end applications through REST APIs. Owned the Inventory functionality, handling core transactions, integrations, and business workflows.

ERP System (Durdans Project) C#, .Net 3.5, JQuery, Bootstrap, Web Forms, SQL

I contributed to developing and maintaining a legacy Web-Based ERP System built with .NET Framework 3.5 using Visual Studio 2008. The system was designed to automate and streamline a wide range of hospital operations, including both clinical and administrative modules, ensuring efficient management of patient care, billing, inventory, and back-office functions and so on.

HIS System (Durdans Project) C#, .Net 4.6, EF 6, MVC, JQuery, Ajax, Bootstrap, SQL

Actively contributed to developing and maintaining a Web-Based Hospital Information System (HIS) using .NET Framework 3.5, ASP.NET MVC, and Entity Framework 6. The system was built to streamline and integrate core clinical and administrative operations at Durdans Hospital, including patient management, OPD services, bookings, EMR, and departmental workflows, ensuring efficient and centralized hospital functioning.

OPD System (Durdans Project) C#, .Net 4.7, Windows Forms, EDMX, SQL

Developed & Maintained a Windows Forms-based OPD Billing System to manage outpatient services billing at Durdans Hospital. The system ensures accurate, efficient billing and reporting for all OPD transactions.

TOOLS & IDES

GitHub, Git, Post Man, IntelliJ Ide, Crystal Reports, Visual Studio, EDMX, SVN, Android Studio, Vs Code

HARDWARE RELATED

Arduino, Raspberry Pi

DOCUMENTATION TOOLS

Canva, WPS Office suite

BSY-Route (Silverline IT Project)

Java, Android, Firebase, Fast API

I have developed the Health tracking mobile application that includes ML functions like Generate meal & workout plans, detecting height & weight, and exercise tracking using Machine learning.

Hair-Diary (Silverline IT Project)

Java, Android, Firebase, Fast API, IOT

I have developed a Mobile application for an IOT device that is integrated into the Hat and I have developed the mobile application including chatbot integration, doctor Perceptions OCR, scheduling appointments and notifying users, and generating report history to users.

Sipsuru (Silverline IT Project)

Java, Android, Firebase, Fast API, GLB, Tensorflow

I have developed a mobile application for under-grade O3 students who are suffering from ADHD & OCD. I have integrated the 3D Therapist who guides students into games. I have developed two AR games for ADHD and OCD students.

File Fortress Web App (Final Year Project)

Vaadin, Java(Spring Boot), JavaScript

A secure and reliable exam paper and answer files transfer application tailored to the specific needs of SLTC Research University exam culture.

AudiMax Library (University Project)

Python(Flask,Qt), Javascript, CSS (Tailwind)

Implementing a AudiMax Web-Application for the people who interested in listening to audio books and desktop application for vision impaired people.

EDUCATION

Tertiary Education:

BSc(Hons) in Software Engineering

SLTC Research University

2020 – 2024

3.61 CGPA

Secondary Education:

2018 – Advance Level (Physical Science Stream)

2015 – Ordinary Level

Taxila Central College Horana

2009– 2018

1C & 2S

8A & 1C

INTERESTS

- Photography
- Video games
- Travelling

LANGUAGE

- English
- Sinhala

COURSES & CERTIFICATIONS

Python for Beginners

Offered by Department of Computer Science & Engineering,
University of Moratuwa

Jun 2022

Introduction to Digital Transformation with Google Cloud

Offered by Google

Mar 2022

IEEE Xtreme Participation

Offered by IEEE

Oct 2021

Cloud Computing Applications, Part 1: Cloud Systems and Infrastructure

Offered by the University of Illinois at Urbana-Champaign

Sep 2021

VOLUNTEERING

Assistant Webmaster

IEEE Student Branch of SLTC

2022/23

Program Sub Committee Deputy Head

IEEE Computer Society of SLTC

2021/22

Other:

PR & Publicity Team Head

Hacktron V1.0

Content writing Team Head

Road to GSOC

Technical Team Head

Fotographia Webinar series

Technical Team Deputy Head

Codegenix Month
